# Uninterrupted Wound Closure Post-Surgery

SERIDERM® POST-OP: Durability meets the healing power of Silk Protein

SERIDERM® POST-OP fulfills surgeons' criteria of an ideal dressing for post-surgical wound care![*]

Polyurethane Layer
- ✅ Protective barrier against bacteria and contaminants
- ✅ Breathable and waterproof

Silicone Adhesive
- ✅ Forms a secure seal without disturbing the healing process
- ✅ Painless application and removal

Cotton Gauze with 100% Silk Protein
in wound contact layer
- ✅ Soft, absorbent layer for optimal moisture management
- ✅ Supports tissue regeneration for expedited healing

Accelerated Healing with Silk Protein

- 100% Silk Protein in the wound contact layer for expedited healing
- Optimal Moisture Management
- Improvement in Inflammatory Markers

Minimizes The Risk of SSIs (Surgical Site Infections)

- Stays on for up to a week - reducing number of dressing changes and exposure to microbes
- Forms a secure seal around the periwound area, preventing SSIs

Comfortable and Durable
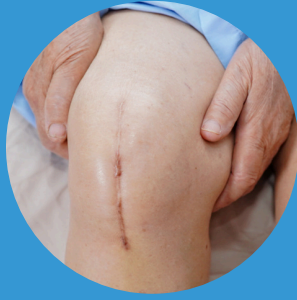

- Conforms to the skin
- Sweat-proof and Shower-proof
